**Divisional Railway Manager  
DLI, LKO, MB, FZR & UMB**

**विषय/Sub:** Maintenance of Assets: Vacancies and outsourcing thereof

It has been noticed that the maintenance of asset (quarters as well as service buildings) is suffering badly for want of requisite manpower. On Northern Railway, there is large number of vacancies in Artisan / Works Khallasis category. At Varanasi sub division, the vacancies in Khallasi category has gone upto 90% and is affecting the day-to-day repair & maintenance work adversely. It will be appreciated that well maintained assets not only increases the satisfaction among employees and users of the Railways but also enhances its life. A well maintained work place also creates positive energy and contributes to the productivity of the organisation.

GM instructed that proposals for deployment of skilled / unskilled man power through outsourcing should be processed immediately and no policy directions in this regard are needed.

Repair works of petty & urgent nature need to be attended in a short notice. These items require regular availability of requisite manpower for providing prompt response. Thus, the proposals for deployment of requisite manpower (Artisans/Khallasis) through outsourcing under revenue may be finalized early to meet with the vacancy position.
